

Join Us!

For the formation of the
Science Advocacy Council

Thursday, April 30, 2009

Time: 7:00 PM

Orange Science Center, room 303

Crescent Intermediate School

5001 E. Gerda Drive

Anaheim, CA 92807

Orange Unified has a highly-successful hands-on science program that makes learning fun and makes science real for our students. This program involves specially-designed science kits that allow children to learn by doing experiments, observing the results and writing about their experiences.

For the past several years, the program has been supported by a generous grant from the Beckman Foundation. In the current financial situation, we may lose some of our funding. Your help is needed to keep this exciting program alive!

Please come to the Orange Science Center to find out how you can help. We are looking for people who can give just an hour or two, as well as those who can make a bigger commitment.

Help us promote science education in Orange Unified through:

- Community Science Nights
- Fundraisers
- Classroom Volunteers
- Science Career Speakers
- 5th grade State Test Review
- Volunteers to replenish the science kits
