### HIGH SCHOOL FACILITIES MASTER PLAN

**Orange, Calif. Sept. 17, 2013** – The Orange Unified School District is in the process of developing facilities master plans for the educational facilities at the four comprehensive high schools. To ensure that each school's educational program needs are identified, community participation in the process for each high school is valued and critical. Stakeholders within their focus area will have an opportunity to provide meaningful input about the educational and operational vision of their particular high school and, ultimately, how the facilities can support that vision.

Each high school will host a series of meetings to gather input from all stakeholders including the community, parents and staff. All members of the community are invited to attend. The schedule for the community meetings for each high school is listed below.
